

Dr Alberto Troccoli is the head of the Weather and Energy Research Unit at Commonwealth Scientific and Industrial Research Organization (CSIRO, Australia). He has more than 15 years of experience in several aspects of meteorology and climate and their application to the energy sector. He has held research positions at NASA, ECMWF and the University of Reading (UK). Alberto is the chief editor and an author of three books: 'Seasonal Climate: Forecasting and Managing Risk' (Springer, 2008), 'Management of Weather and Climate Risk in the Energy Industry' (Springer, 2010), 'Weather Matters for Energy' (Springer, due out in 2013). He is the convener of the International Conference Energy & Meteorology (ICEM, Australia 2011) and ICEM-2 (France 2013). Alberto holds a PhD in physical oceanography from the University of Edinburgh (UK). Additional info can be found at: <http://www.albertotroccoli.org>
